## Get it done in style everywhere you work

### Surface Laptop Go for Federal

# Style and productivity go great together

Extend your style to your laptop with a choice of stunning, modern colors<sup>3</sup>. **The lightest Surface Laptop yet at just 2.45lb** helps you see and do more on a 12.4"<sup>2</sup> touchscreen that takes your view to the limit with narrow bezels and our signature 3:2 ratio.

#### Equipped for government use

Collaborate, connect, and do your best work with an essential everyday laptop. Power through virtual meetings and the apps you need with all-day battery life<sup>1</sup> and a full-size keyboard. Charge accessories and connect to displays with USB-C® and USB-A ports. Work more securely by authenticating to your networks with the **FIPS 201-compliant Griffin Mobile Smart Card Reader\***.

#### Work more securely, on your terms

Whether you need to physically disable cameras or just want to better secure all aspects of your corporate endpoints, **Surface Enterprise Management Mode (SEMM)** provides a scalable deployable utility to meet this need. Administrators can selectively choose to enable or disable hardware-based components, in addition to boot options, on a per-device basis all secured via PKI.

<sup>2</sup> Surface Laptop Go display has rounded corners within a standard rectangle. When measured as a standard rectangular shape the screen is 12.45" diagonally (actual viewable area is less). <sup>3</sup> Available colors may vary by market <sup>4</sup> System software and updates use significant storage space. Available storage is subject to change based on system software updates and apps usage. 1 GB= 1 billion bytes. See Surface.com/Storage for more

details. <sup>5</sup> Microsoft's Limited Warranty is in addition to your consumer law rights.

<sup>\*</sup>Sold separately. <sup>1</sup> Surface Laptop Go battery life: Up to 13 hours of battery life based on typical Surface device usage. Testing conducted by Microsoft in September 2020 using preproduction software and preproduction configurations of Surface Laptop Go Intel® Core<sup>™</sup> i5, 128GB, 8 GB RAM Microsoft Surface® Edition devices. Testing consisted of full battery discharge with a mixture of active use and modern standby. The active use portion consists of (1) a web browsing test accessing 8 popular websites over multiple open tabs, (2) a productivity test utilizing Microsoft Word, PowerPoint, Excel and Outlook, and (3) a portion of time with the device in use with idle applications. All settings were default except screen brightness was set to 150nits with Auto-Brightness disabled. Wi-Fi was connected to a network. Battery life varies significantly with settings, usage and other factors.
