

Meet Surface Studio 2 for Federal

Transform your workspace

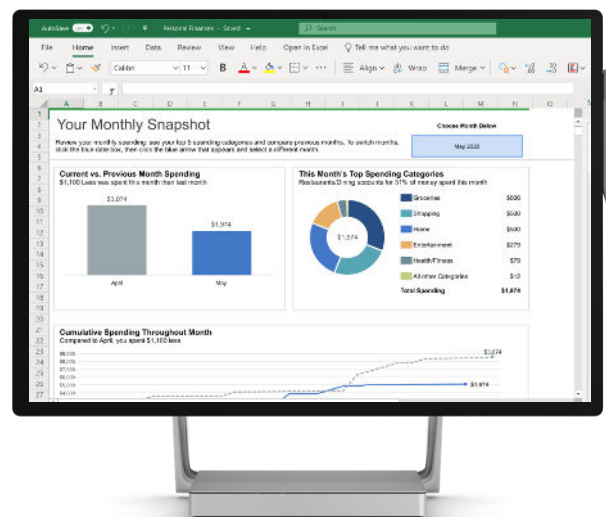

Move seamlessly from Desktop to Studio Mode with a **zero-gravity, counterbalance hinge**. **Create at your optimal angle** when you work at 20 degrees down in Studio Mode or upright in Desktop Mode. Watch your work come to life with 4K detail and a **28-inch PixelSense display**—13.5 million pixels of pure, true-to-life color and clarity. Video calls with a 1080p camera, Stereo 2.1 speakers with Dolby® Audio™ Premium, and far-field microphones help you feel like your team is in the same room.

Creativity and security

Microsoft Surface Studio 2 is the most powerful Surface yet, with Intel® Core™ i7 processors, discrete NVIDIA® GeForce® GPU, and SSD storage. **Run intensive, professional-grade software** like Adobe Creative Cloud,* AutoCAD,* Bentley Navigator,* and SolidWorks* with the power you need to do your best. Feel confident that your work remains highly secure with more than just a password—Windows Hello biometrics provides enterprise-grade protection when you unlock your device with a look.

Work more securely, on your terms

Whether you need to physically disable cameras or just want to better secure all aspects of your corporate endpoints, **Surface Enterprise Management Mode (SEMM)** provides a scalable deployable utility to meet this need. Administrators can selectively choose to enable or disable hardware-based components, in addition to boot options, on a per-device basis—all secured via PKI.

Warranty Support you can Trust

Work without worries, knowing you can receive quick and reliable support through Microsoft's service partnership with ITG. Choose **3-year, 4-year, or 5-year onsite warranties w/Keep Your Hard Drive**, receive support by the next business day, and remain in full compliance with regulations.

TECHNICAL DETAILS
